Students Stopping
Crime Program

PRESENTERS

- Hans Lux, Jr.
 - Program Coordinator - Green Bay Area Crime Stoppers
 - Vice President – Wisconsin State Crime Stoppers
 - Vice Chairman – Crime Stoppers USA
- Roger Allen
 - Principal – De Pere High School
 - Advisor – Green Bay Area Crime Stoppers

Starting an In School Crime Stopper Program

- CS board, Law Enforcement, and School Administration support is critical to the success of any Crime Stopper School Program
- All must agree the program is viable
- CS board to fund the program
- Law Enforcement & School Administrators committed to coordinating with CS Coordinator or board, LE to provide SRO's and school - staff assistance.
- Goals are set for the program
- Operational guidelines are created to describe the responsibilities of each of the parties involved.
- MOU's can be utilized as method of understanding between the parties.

Implementation Continued

- Define the role & responsibilities of School Administration and Staff
- Define the role & responsibilities of the School Resource Officer
- Clearly define the difference between Anonymous and Confidential tipsters
- Anonymous tips utilize programs reporting options – no direct contact
- Confidentiality is critical to basic concept of Crime Stoppers. Review and utilize Hinterlong case for in-school tips
- On in school tip notification, SRO or school staff receiving tip is the final and only person who should know the identity of the tipster, never to be released to another party

Identifying the Programs Success

- Rewards are paid out following program guidelines developed between CS board, school, and LE participants
- All rewards must be accounted for through paper trail and presented to the CS Board for review.
- Statistics should be captured and maintained showing
 - Number of Tips received and verified
 - Type of tip (drugs, alcohol, weapons, other)
 - Number of rewards paid out
 - Total amount of rewards paid

SRO's and School Administration should provide refresher presentation for the school staff and students at the start of each school year to promote the program and the benefits the program provides

Green Bay In school Crime Stopper Program

- After the 1999 Columbine High School shooting and others that followed, Crime Stoppers programs throughout the United States wanted to offer a Crime Stoppers type program in the schools.
- In 2005 GBACS started the in-school Crime Stopper program called “Quick \$50” , modeled after a program offered by CSUSA.
- The focus of the program was to reduce drugs, weapons, and alcohol from being brought on to the school campus.
- Information from students that was found to be true, were given a \$50 reward within 24 hours of the incident.
- In 2011, GBACS revamped our “Quick \$50” program into a new program called “Students Stopping Crime”.
- We wanted the students to be more engaged in helping to keep their fellow student's safe and promote a safe campus along with removing issues from the program.
- New guidelines for the program were developed and given to the SRO's.

Students Stopping Crime Program

- GBACS held several training meetings with the SROs and school administrators in reference to the new in school program to gain their support with the change.
- As part of our ongoing sponsorship of the program, several GBACS board members attend the monthly SRO meetings, to keep open communications between schools, SRO's, and our organization. Discussion includes school incidents, rewards, and suggestions to improve the program.
- It is through the communication received at these meetings, GBACS added to the list of items reported would receive a reward.
- Bullying was added to the list, and schools requested vaping in school which was added to the list as numerous vaping cases involves drugs.
- In working directly with the SROs, we continue to develop the program with the focus of keeping our kids and staff safe while attending school.
- To further promote the Student Stopping Crime program, the GBACS in 2015 started the "School Media Board" program, placing large monitors in every High, Middle, and Intermediate school in Brown County.
- Schools control the content as to school information, including mandatory slides to include information on the Students Stopping Crime program, i.e. Crime Stoppers.

School Mats

- In 2022 the GBACS did “Project Walk on By”.
- GBACS purchased (2) floor mats for every high and middle schools in Brown County.
- Main purpose was to continue to promote the Students Stopping Crime program.
