

LET'S CHAT

Conversation should be appropriate for grades 5-12

Parents we encourage open dialogue between you and your children. Young people are exposed to many issues at a young age. This game will create positive conversation for your family. Your child should start with 5 fingers up. Every time a sentence is true to him/her, your child should put a finger down. This is a twist on the game "Never Have I Ever." Have your student elaborate when answers are true.

Know someone who had their phone stolen

Know someone who got involved with drugs

Kids may try drugs for the 1st time between 13-15 years old
