ABOUT VALLEY  
CRIME STOPPERS.

## INTRODUCTION

In 2016, Crime Stoppers USA celebrated 40 years as a nonprofit program helping law enforcement get "bad guys" off the street. The 40th Anniversary USA conference was held in Albuquerque, New Mexico where Crime Stoppers began in July 1976.

Valley Crime Stoppers is a part of that USA family and continues to be a citizen-run nonprofit organization working hard, with the support of our sponsors and media partners, in helping make the Valley a safer place to live. Our Board of Directors is made up of a group of caring business people who come together and donate their time and experience to be a part of bettering our communities. Valley Crime Stoppers is extremely grateful for the generosity and support of our sponsors. These sponsors trust and support the mission of Valley Crime Stoppers and with their continued support, Valley Crime Stoppers has been hard at work doing all we can to support law enforcement and encourage anonymous tips toward arresting criminals.

In 2016 Valley Crime Stoppers increased rewards. The payouts have always been and continue to be based on the severity of the crime, but this year we added in a gang enhancement. If a tipster calls in and gives an anonymous tip against a crime that has gang involvement, then that payout increases anywhere from 50 – 100%.

As we look toward 2017 we will continue our effort to put efforts toward involving and educating valley students about Valley Crime Stoppers. Our increased effort in this area is designed to encourage students on the importance of taking ownership and pride in their schools and educating them about the anonymity of reporting dangerous activity.

On behalf of the Valley Crime Stoppers Board of Directors, we would like to say thank you for believing in us, our mission and for enabling us to assist local law enforcement in making a difference in our communities.

Dale Mendoza, President, Valley Crime Stoppers

Detective Brad Stevens, Fresno Police Department

Asst. Sheriff Robert Kandarian, Fresno County Sheriff's Department

## M E D I A P A R T N E R S

Valley Crime Stoppers, a strong crime-fighting partner with law enforcement, could not function without the tremendous support we receive from our media partners. From crime scene reenactments, to most wanted ads and everything in between, our media partners are the engine that makes the wheels turn with power and precision.

On television CBS47 produces and airs Crime Stopper reenactments throughout the day each and every week along with posting those reenactments to the Eyewitness News Facebook page. CBS47 also hosts the current Crime Stoppers app, producing content for the app and promoting the app after each "most wanted" segment in each CBS47 newscast and on air with a 15 second Crime Stoppers app promotional spot. CBS47 Eyewitness News profiles one "most wanted felon" and one "arrest of the day", Monday through Friday at 6pm and 11pm. In addition to all of the above media outreach, CBS47 and KSEE 24 each tag every crime related news story with 498-STOP and produce Crime Stoppers Public Service Announcement image campaigns and topical campaigns.

In print, The Fresno Bee runs a monthly half-page ad profiling 20-30 of the area's most wanted criminals, runs full page ads about four times per year and when there is a particular need and often directs readers to call the 498-STOP number on pertinent news articles. In addition, Clovis Round-Up, Selma Enterprise, Kerman News, Reedley Exponent, Madera Tribune and Mountain Press all publish monthly most wanted ads specific to their area of distribution.

Our radio partner, Cumulus Broadcasting, also contributes a large amount of air time to Valley Crime Stoppers and consistently promotes the 498-STOP number throughout their station group, which includes KMJ, KISS Country, MEGA 97.9 and Y101 radio stations. On KMJ they broadcast Chief Jerry Dyer's most wanted of the week. Sheriff Margaret Mims' most wanted of the week runs on Mega 97.9 and Clovis Chief Matt Basgall's most wanted runs every other week on KISS Country.

In 2016, Crime Stoppers increased our outreach to the Hispanic community thanks to our Spanish radio partnership with Univision radio. Univision runs three reenactments a day on their three Spanish speaking radio stations, KOND 92.1, KLLE 107.9 and KRDA 107.5.

Our overall advertising campaign work is made possible by our partnership the Jeffrey Scott Agency. They help coordinate placement for paid media campaigns; design artwork for monthly print ads; design and produce all collateral material; design and maintain the website and write, design and distribute all major (and most minor) campaigns.

Valley Crime Stoppers thanks these media partners who annually give upwards of \$300,000. Valley Crime Stoppers has been able to take a large bite out of crime and has received national recognition as a shining example of cooperation centered on one shared goal; keeping our community safe for our citizens. Many criminals are finding out what we know – when our community comes together, they've got nowhere to run and nowhere to hide!

OUR MEDIA PARTNERS ARE THE ENGINE THAT MAKES THE WHEELS TURN WITH POWER AND PRECISION.

DR. LAWRENCE J. SIMON

SEXUAL PREDATOR CLASS TRAINING , 2016

## 2 0 1 6   I N   R E V I E W

Valley Crime Stoppers is proud to support our law enforcement partners in many aspects. This past November we made a donation toward a specialty training session for officers throughout our area. The course gave extensive examination into the mindset of sexually violent individuals from the mouths of those who prey on unsuspecting citizens. Dr. Lawrence J Simon, author of the book "Murder by Numbers: Perspectives on Serial Sexual Violence" has worked in maximum security prisons, including closed management settings and death row and has studied these individuals for years. Dr. Simon was able to discuss the underlying motivations or some of the most bizarre, violent, non-violent and invasive paraphilic behaviors. The course combined the perspectives of psychology and disturbing viewpoints from some of the most dangerous sex offenders and murderers behind bars. The goal was for those in training to significantly increase their awareness and understanding behind some of the vilest sex crimes ever perpetrated.

THE GOAL WAS  
FOR THOSE IN  
TRAINING TO  
SIGNIFICANTLY  
INCREASE THEIR  
AWARENESS AND  
UNDERSTANDING  
BEHIND SOME  
OF THE VILEST  
CRIMES EVER  
PERPETRATED.

## 2 0 1 6     S P O N S O R     H I G H L I G H T

A proud supporter of Valley Crime Stoppers, Mid Valley Disposal has been a Platinum Sponsor since 2004. The Kalpakoff family, owners of Mid Valley Disposal, have always taken a keen personal interest in Valley Crime Stopper events. Over the years they have sponsored events such as June Jam and Cigar Fest and have contributed over \$50,000.00 to keep our employees and their families safe as well the community.

Founded by Jay Kalpakoff in 1997 in Kerman California, Mid Valley Disposal is a family-owned business that today serves 26 communities. Jay and his wife Natalie raised a tight knit family; their son Joseph Kalpakoff is currently Mid Valley's CEO, and their son Jonathan and daughter Tatiana play an active role in managing the company. As Joseph puts it, "My parents taught me to take pride in my family and my community. My brother, sister and I strive to bring those values into our company and the communities we serve. Crime Stoppers is an organization that displays those values, so it is only fitting for Mid Valley Disposal and Central Valley Crime Stoppers to partner."

Mid Valley Disposal is a local, privately-held recycling and waste management company located in the heart of California's Central Valley. Founded in 1997, Mid Valley Disposal has been serving the San Joaquin Valley with the same operations and values that the company was founded on 20 years ago. Mid Valley Disposal strives to have an active role in the communities it serves by participating in local events, visiting classrooms providing recycling education, and by delivering the best personalized service it can to each of its customers.

Since its inception, Mid Valley Disposal has been one of the Central Valley's most ecologically progressive companies. When it comes to green practices, Mid Valley Disposal leads by example; from on-site vermi-composting to manufacturing and distribution of products made from recycled materials. Mid Valley Disposal recognizes its critical role in reducing greenhouse gases and keeping the environment clean and green. In addition to its commitment to the communities it serves, the company stresses education of its employees about recycling and sustainable workplace practices.
